

Board members

Chris Sutton

Chris joined the board in 2019 and previously sat on the Audit & Risk Committee, before taking up the post of vice chair of the Remuneration Committee in September 2021.

Chris believes the association has an important role to play in terms of both the provision of housing in Newport and the regeneration of parts of the city.

Chris' connections with Newport go back to 1986 when he started as a junior surveyor. Chris is a chartered surveyor and brings direct experience in the property, investment and development markets to the association, along with softer skills such as business experience through his time with CBI Wales and links to Higher Education through his role as governor of the University of South Wales, which has a campus in Newport.
