

Pillgwenly Contract Award

August 2023

Hello!

Newport City Homes have recently appointed Centregreat, a well-established, high quality, infrastructure services provider to carry out the final phase of our Pillgwenly Regeneration project.

Centregreat are due to start on site at the beginning of September, where they will be resurfacing the existing highways, creating new shared surfaces, boundary walls and landscaping. The works will be split into several phases and NCH will contact residents that will be directly affected by the works which we anticipate will complete by the end summer, 2024.

We are very committed to minimising any disruption from the ongoing works to residents, however we note that you may at some time experience some disruption including road closures, we will endeavour to maintain contact during the these works, keeping you informed of all issues.

In addition to this, we welcome any queries, comments or concerns you may have throughout the construction process. If you need to get in touch, please contact a member of the project team below.
